

Much More Than a Store...

In 1902 Reverend Edgar J. Helms founded his ministry. I doubt he could have imagined the journey that he began would have such a profound impact for so many individuals. The concept of providing jobs for people lacking the necessary skills to obtain employment was unique in an era where charity for the needy was the responsibility of the community, not

the government. One hundred years later we continue to take our mission seriously: helping and supporting our neediest neighbors with the powerful and proven concept of "a hand up, not a hand out."
